EXPERIENCE

SMILE - PARIS | Software Engineer PHP Symfony

May 2022 - Present

Project: For'me | Internal training project for employees

Tech stack:
- PHP 8, Framework Symfony 6, Doctrine, MySQL
- API REST, EasyAdmin
- Unit/functional Testing (PhpUnit, PhpSpec, Behat/Mink)
- Git / github/ Code review / CI-CD pipeline
- Monitoring tool (Sentry, supervisord)
- Docker, Crons, Redis, RabbitMQ
- Méthod : SCRUMBAN

Rhinos-Solution - La Rochelle | Back-end Developer

Sep 2020 - May 2022 · 1 yr 9 mos

Projects: PROMOCASH - SONEPAR - Autodistribution

Tech stack:
- PHP 7/8, Symfony 4/5, LARAVEL (8/9), Éloquent, MariaDB
- API Resources, API REST
- Highcharts / Select2 / NodeJs / Datatables
- Git / gitlab / CI/CD pipeline
- Capistrano / Circle / Sentry
- Docker, Task Scheduling, RabbitMQ
- Data structure :B-tree

BiiG Digital Strategy - Niort | PHP Back-end Developer

Sep 2018 - Aug 2020 · 2 yrs

Projects: Qazle - Maif Bénévole - Sofinco - Formulez

Tech stack:
- Php 7, Framework Symfony (3/4), Doctrine,
- MySQL / PostgreSQL
- API Platform, API REST
- Unit/functional Testing (PhpUnit, PhpSpec, Behat)
- Versioning (Git)Issue tracker, Code review, CI (Gitlab)
- Monitoring tool (Sentry, Graylog)
- Docker, ElasticSearch, Redis, RabbitMQ, Sonata
- Design Pattern, DDD, SOLID principles, KISS, DRY
- Method : mainly Agile

Abbaye-de-fontdouce - Saintes | Mobile Developer

APRIL 2018 - JULY 2018

Tasks performed :
Multi-platform mobile application: Game of Stones:
- Developing an adventure game application with the Ionic 3 Framework.
- Connect the application with a "REST" API server created with Node.js.
- Build a Back-office to manage the application.

Tech stack :
- Angular 4, Framework Ionic 3
- SQLite, MySQL, NodeJs, Express JS
- Design Pattern: Singleton, Decorator, MVC
- HTML5, CSS, Bootstrap
- IDE: WebStorm

SKILLS

PHP | Symfony | Api Platform
PhpUnit | Behat | Redis
Sonata | Laravel
EasyAdmin

....

Java | JPA | Maven | JUnit
Spring | **RESTfull API**

....

REACT.JS | NodeJS
Ionic | Cordova

....

C++ |Scala | C | C# | Python

....

SQL | NoSQL | PostgreSQL
MongoDB | N e o 4 j | spark

....

Docker | Git | GitLab | GitHub

....

Code quality   Agile Method

UML design   Critical spirit

Attentive to details   Time management

LANGUAGES

- **Music**
- **Fitness**
- **Travel and exploration**
- **photography**
- **cooking**

FST- Fès - FullStack PHP/jQuery developer
Apr 2016 - Jun 2016 · 3 mos

Tech stack:
Php 5, Framework Laravel 4
HTML, CSS, Bootstrap, JQuery, Javascript
ORM, Mysql, Git, Github
Project management :Trello

....

EDUCATION

M.Sc. Computer Science Software Architect
2018- 2020
La Rochelle University

License Software development
2016 - 2018
La Rochelle University

License Computer Engineering
2012 - 2016
FST-Faculty of Science and Technology of Fez

Recognition of a computer engineering degree by
ciep enic-naric France

Bac Physics and Chemistry
2009 - 2012
Ibn Hanie-Fes High School

....

SOME PROJECTS

Build my first portfolio | yassine-el-azami.com
JAN 2023
Project fully developed from scratch

Backend : Symfony 6 | API Platform | EasyAdmin | Doctrine | MySQL

Frontend : React.JS 17 | SaSS | HTML 5

Infra : Docker | Docker-compose

Other : Git | GitHub | Makefile

Data Science - Analysis and monitoring of seal behavior
JAN-FEB 2020

Jupyter Notebook - python - Scikit-Learn.
Problem: Try to identify distinct behaviors (hunting, breeding, resting) of seals.

PhD subject, state of the art: Smartphone Eye Tracking
NOV-DEC 2019

Critical thinking, Research, Writing
Documentary research on eye tracking on cell phones.

IoT Project « Flower Care » - Cuculus GmbH
MARCH-APRIL 2018

Xiaomi sensors, IoT, Cordova, NodeJS, MQTT, Agile Method
Plant Health Check Solution
